Royal Botanic Garden Edinburgh

FLORA OF EDINBURGH.

Works by Professor Balfour.

I.

In One large Vol. 8vo, with 1800 Illustrations, price 31s. 6d.

CLASS-BOOK OF BOTANY;

Being an INTRODUCTION to the STUDY of the VEGETABLE KINGDOM.

The same may also be had in Two Parts :—

PART I. STRUCTURAL AND MORPHOLOGICAL BOTANY. 8vo, 10s. 6d.

PART II. Comprising the ELEMENTS of VEGETABLE PHYSIOLOGY, CLASSIFICATION, BOTANICAL GEOGRAPHY, and FOSSIL BOTANY. With a Glossary of Terms. 8vo, 21s.

II.

In Crown 8vo, pp. 700, with 820 Illustrations, price 12s. 6d.

MANUAL OF BOTANY;

Being an INTRODUCTION to the STUDY of the STRUCTURE, PHYSIOLOGY, and CLASSIFICATION OF PLANTS.

III.

Fcap. 8vo, pp. 712, with 600 Illustrations, price 8s. 6d.

OUTLINES OF BOTANY;

New Edition, REVISED and ENLARGED, designed for Schools and Colleges.

IV.

In Crown 8vo, Illustrated, price 2s. 6d.

THE BOTANIST'S COMPANION;

Or, Directions for the Use of the MICROSCOPE, and for the Collection and Preservation of PLANTS, with a Glossary of BOTANICAL TERMS.

FLORA OF EDINBURGH

BEING

A LIST OF PLANTS FOUND IN THE
VICINITY OF EDINBURGH

BY

JOHN HUTTON BALFOUR, M.A., M.D.,
PROFESSOR OF BOTANY.

ASSISTED BY

JOHN SADLER, F.R.P.S.

VICE-SECRETARY OF THE BOTANICAL SOCIETY,
AND DEMONSTRATOR AT THE ROYAL BOTANIC GARDEN.

EDINBURGH

Flora of Edinburgh
DWDJ1 aa

PREFACE.

THE Flora of Edinburgh is varied and extensive. The country in its vicinity presents great diversity of soil, elevation, and exposure. There is the plain and the mountain, the river and the sea-shore, the wood and the valley, the moor and the cultivated field. Each of these localities has its peculiar vegetable productions. The Trappean rocks present many elevated summits covered with a rich and luxuriant vegetation, and the secondary rocks of the Carboniferous epoch produce a soil well fitted for the growth of plants.

So far back as 1670 botany appears to have been cultivated in this city. At that time the Botanic Garden was established, and under the care of Sutherland, who was Professor of Botany in 1676, it contained many native plants, more especially those used in *Materia Medica*. It was hence called the Physic Garden, a name still kept up in the locality where the Garden existed. The collecting of plants by the pupils of the medical school was encouraged by Professor John Hope, who offered a medal for the best Herbarium, this

was gained on one occasion by Sir James Edward Smith, who was a student at this school. The practice of giving a medal has been continued by the Professors who have succeeded Dr. Hope. By this means the Flora of Edinburgh has been very carefully examined. One of the prize-bearers, Mr. Woodforde, printed a catalogue of plants round Edinburgh, and about the same time Dr. Greville published his *Flora Edinensis* containing descriptions of the Phanerogamous and Cryptogamous plants within ten miles of the city. The latter work is still an excellent book of reference, although there has been some additions made to the Flora since its publication. The facilities presented by railways has extended the range of excursions, so that twenty miles is now the extent of country embraced in the announcement for the Prize Herbaria. The weekly trips made during summer by the Botanical Class of the University of Edinburgh have extended greatly the knowledge of the local Flora, and the result is given in the following list of plants. The district embraced is shewn in the accompanying map. It extends to between twenty and thirty miles round Edinburgh, and includes considerable variety of soil, climate, and exposure.

Besides the Flowering plants and Ferns, a list of Mosses, Hepaticæ, and Lichens has been added by Mr. John Sadler, who assists in the work of the Botanical Class. In some cases plants are noticed a little beyond

the range. Those put in brackets are not natives of Britain, but are occasionally found as escapes from gardens. Plants are enumerated which have been introduced into different localities, and especially such as have become naturalised. In this way the list has been enlarged with the view of making it useful for students. The list embraces 398 genera, 969 species, and 61 varieties of flowering plants ; 18 genera, and 41 species and varieties of Ferns and their allies ; and 480 species and varieties of Mosses, *Hepaticæ*, Lichens, and *Characeæ*.

ROYAL BOTANIC GARDEN,
Edinburgh, 20th April 1863.

FLORA OF EDINBURGH.

CLASS I.—DICOTYLEDONES OR EXOGENÆ.

SUB-CLASS I.—THALAMIFLORÆ.

Natural Order.—**Ranunculaceæ**—The Buttercup,
or Crowfoot Family.

CLEMATIS. LINN.

C. **Vitalba**, L. Traveller's Joy, Old Man's Beard.

Woods and hedges—June–August.

Aberdour, Dalkeith Park, Colinton Woods, Musselburgh,
road-side Portobello, North Berwick. Introduced.

THALICTRUM. LINN.

T. **minus**, L. Lesser Meadow-Rue.

Sandy and stony pastures near the sea—June, July.

Between Caroline Park and Cramond, North Queensferry,
Dysart, coast west of Kirkcaldy, North Berwick.

T. **flexuosum**, Bernh. Greater Meadow-Rue.

Stony places and thickets—June, July.

North Queensferry.

T. **flavum**, L. Common or Yellow Meadow-Rue.

In moist situations—June, July.

St. David's, North Queensferry, Donibristle, road-side
near Roslin.

ANEMONE. LINN.

A. **nemorosa**, L. Wood Anemone, Wind-flower.

Woods and thickets—April, May.

Common in woods at Roslin, Newbattle, Dalhousie, Arnistoun, Colinton, Cramond, Hopetoun, Falkland, etc.

Flowers occasionally double, and of various tints of colour.

A. **apennina**, L. Blue Mountain Anemone.

Woods—May.

Melville Castle woods. Introduced.

RANUNCULUS. LINN.

R. **aquatilis**, L. (*heterophyllus*, Sibth.) Common Water Crowfoot.

Lakes, streams, ponds and ditches—June—September.

Duddingston, Lochend, Gullane, Dunfermline, Kinghorn, Dalmahoy, Prestonpans, Tynehead, North Queensferry.

β. **confusus**. Gullane, Duddingston, Lochend, Bo'ness.

γ. **Baudotii**. Gullane. J. T. Syme.

δ. **trichophyllus**, Water Fennel, Dunsappie Loch, Lochend, Dalmahoy, Dunfermline, Gullane.

ε. **floribundus**. Dunsappie Loch. J. T. Syme.

R. **circinatus**, Sibth. Water Crowfoot.

Slow running streams and ponds—June—August.

Lochend, Duddingston, Otterston Loch.

R. **fluitans**, Lam. Floating Water Crowfoot.

Streams—June, July.

Near Kinghorn.

R. **hederaceus**, L. Ivy-leaved Crowfoot.

Shallow ponds, bogs, and mud—June—September.

Duddingston Loch, Ravelrig Bog, North Queensferry, Lochgelly, Lasswade, Dollar, Carlowrie, Dunfermline.

R. **sceleratus**, L. Celery-leaved Crowfoot.*Ditches and ponds—June—September.*Duddingston Loch, Lochend, near Charleston, Linlithgow,
Kilconquhar, Kincardine, North Berwick, Linton.R. **Flammula**, Lesser Spearwort.*Bogs, and wet places—June—August.*Queen's Park, Duddingston Loch, and in almost all ditches
and marshy spots. β . **reptans**. Shores of Loch Leven, Loch Fittie, Dun-
fermline.R. **Lingua**, L. Great Spearwort.*Ditches, and sides of Lakes—July, August.*

Duddingston Loch, near Binns, Otterston Loch, Dollar.

R. **Ficaria**, L. Pilewort, or Lesser Celandine.*Woods and damp shady places—April, May.*Granton, Roslin, Colinton, Penicuik, Burntisland, Arnis-
ton, Dalhousie, Braid Hermitage, very abundant at
Cramond Bridge, Dalmahoy, etc.R. **auricomus**, L. Wood Crowfoot, or Goldilocks.*Woods—April, May.*Roslin, Arniston, Dalhousie, Dalkeith, Colinton, Habbie's
Howe, North Queensferry, Burntisland, Penicuik,
Dollar.R. **acris**, L. Upright Crowfoot, Buttercups.*Meadows and pastures—June, July.*

Common.

R. **repens**, L. Creeping Crowfoot, called also Buttercups.*Meadows, pastures, roadsides—May—August.*

Common.

R. bulbosus, L. Bulbous Crowfoot, called also Buttercups.*Meadows and pastures—May, June.*

Queen's Park, Gullane, Meadow below Roslin Castle, North Queensferry, Burntisland, Craigeith, Falkland, Kirknewton, Dalkeith, Prestonpans, Dollar, etc.

R. hirsutus, Curt. Pale Hairy Crowfoot.*Pastures and waste places—June–October.*

Caroline Park, between Dalkeith and Newbattle, Dunfermline, Kincardine, Pentland Hills, Inverkeithing, North Queensferry.

R. arvensis, L. Corn Crowfoot.*Cornfields—June, July.*

Gullane, fields near Granton, and Prestonhall.

CALTHA. LINN.

C. palustris, L. Common Marsh Marigold.*Marshy places—April–June.*

Duddingston Loch, banks of Water of Leith, Arniston, Cramond, Penicuik, Tynehead, Linlithgow, Falkland, Burntisland, Colinton, Kirknewton, Dollar, etc.

β. minor. Pentland Hills, near Dollar.

TROLLIUS. LINN.

T. europæus, L. Mountain Globe Flower.*Moist spots in meadows and woods—June, July.*

Penicuik Glen, Arniston, Currie, Dunfermline, Auchindinny, Burntisland, Dollar, near Borthwick Castle, Lugton, Mid-Calder.

ERANTHIS. SALISB.

E. hyemalis, Salisb. Winter Aconite.*Woods and pastures—February, March.*

Colinton, Caroline Park, Arniston, Cramond. Introduced.

HELLEBORUS. LINN.

H. **viridis**, L. Green Hellebore, or Bear's-foot.

Woods, hedges, and old walls—March, April.

Near Lasswade. Introduced.

H. **foetidus**, L. Stinking Hellebore, or Setterwort.

Woods, usually near houses—March, April.

Warriston, Corstorphine Hill, woods in Fife. Introduced.

AQUILEGIA. LINN.

A. **vulgaris**, L. Common Columbine.

Woods and thickets—May, June.

Colinton, Dalhousie, Auchindinny, Newbattle, Hawthornden, Currie, South Queensferry, Dollar. Doubtful Native.

ACONITUM. LINN.

A. **Napellus**, L. Common Wolf's-bane, or Monk's-Hood.

Banks of streams and brooks—June, July.

Roslin, Currie, Fordel, Dysart, Raith, banks of Esk above Inveresk, Corstorphine, Arniston. Introduced.

ACTÆA. LINN.

A. **spicata**, L. Common Bane-berry, or Herb Christopher.

Bushy places—May.

Cleish Castle. Introduced, and now probably extirpated.

N. O.—Berberidaceæ—The Barberry Family.

BERBERIS. LINN.

B. **vulgaris**, L. Common Barberry.

Hedges and thickets—May, June.

Dalmeny, Tynningham, Prestonhall, Colinton, South Queensferry, Cramond, Dysart, Charleston, Burntisland, Kilconquhar, Currie, Gorebridge.

EPIMEDIUM. LINN.

E. **alpinum**, L. Alpine Barrenwort.

Woods—May, June.

Bandrum Saline, Inverkeithing, Dalhousie, Caldron Linn
Dollar, at one time found at the Hunter's Tryste.
Introduced.

N. O.—**Nymphæaceæ**—The Water Lily Family.

NYMPHÆA. LINN.

N. **alba**, L. Great White Water Lily.

Lakes and ponds—July.

Black Loch near Dunfermline, Pond west of Dundas Hill,
Meadowbank, Tynehead, Lindores Loch, Lochend.

NUPHAR. SM.

N. **lutea**, Sm. Common Yellow Water Lily, or Brandy-bottle.

Lakes and ponds—July.

Black Loch Dunfermline, Lindores Loch, Meadowbank,
Lochend, Ravelston, Prestonpans, Raith, Kinghorn,
Kilconquhar.

N. O.—**Papaveraceæ**—The Poppy Family.

PAPAVER. LINN.

P. **Argemone**, L. Long Prickly-headed Poppy.

Corn fields and waste ground—June, July.

Queen's Park, Dalkeith, Newhaven, Burntisland, very
abundant near Longniddry and elsewhere in Hadding-
tonshire, Portobello, Dysart, Braid, Caroline Park,
Kirkcaldy, Queensferry, Falkland.

P. Rhœas, L. Common Red Poppy.*Corn fields and waste places—June, July.*

Caroline Park, Burntisland, Prestonpans, Linton, North Berwick, Drem, Kincardine, North Queensferry, Dysart, Dollar, etc.

P. dubium, L. Long Smooth-headed Poppy.*Corn fields—June, July.*

Salisbury Crags, Duddingston, Newhaven, Portobello, near Lochend, Borthwick Castle, Linton, North Queensferry, Drem, etc.

P. somniferum, L. White or Opium-Poppy.*Sandy places near the sea—July.*

Caroline Park, Lasswade, North Berwick, Kirkcaldy, North Queensferry, Donibristle, Kinross. Introduced.

MECONOPSIS. VIG.

M. cambrica, Vig. Common Welsh Poppy.*Moist shady rocky places—June.*

Woodhall near Currie, Cleish Castle, Braid woods, Hatton. Introduced.

GLAUCIUM. SCOP.

G. luteum, Scop. Yellow Horned Poppy.*Sandy sea shores—June–August.*

Elie and Anstruther, North Queensferry, North Berwick, Rosyth Castle, Charleston, Gosford.

CHELIDONIUM. LINN.

C. majus, L. Common Celandine.*Waste places—May–August.*

Culross, Hopetoun, Corstorphine, Tranent Kirk, Dalhousie, Seaton, Water of Leith, Prestonpans, Falkland. Introduced.

N. O.—**Fumariaceæ**—The Fumitory Family.

CORYDALIS. DE CAND.

C. solida, Hook. Solid-Rooted Fumitory.*Groves and thickets—May, June.*

Dalkeith, Colinton. Introduced.

C. lutea, DC. Yellow Fumitory.*Old walls—May–August.*

Colinton, Dalkeith, Raith. Introduced.

C. claviculata, DC. White Climbing Fumitory.*Bushy hilly places—June, July.*Ravelston Quarry, Dalmahoy Hill, Culross, Aberdour,
Craigeith Quarry, Clunie, Dollar, etc.

FUMARIA. LINN.

F. capreolata, L. Rampant Fumitory.*Corn fields and waste bushy places—June–September.*Salisbury Crags, Craigmillar, Corstorphine, Gosford, Currie,
Aberdour, North Queensferry, Dollar, Burntisland,
Tynningham, Kinghorn, Kincardine, etc.**F. officinalis**, L. Common Fumitory.*Corn fields and waste places—May–August.*

Common in corn fields, etc.

F. micrantha, Lag. Close-flowered Fumitory.*Fields and waste places—June–September.*Inverkeithing, Calton Hill, Loch Leven, abundant about
Longniddry, Slateford, Craiglockhart, banks of Union
Canal, Falkland, Tynningham, Drem, North Queens-
ferry.**F. parviflora**, Lam. Small-flowered Fumitory.*Fields and waste places—June–September.*

Longniddry, Dirleton, Dollar.

N. O.—**Cruciferæ**—The Cruciferous or Cresswort Family.

CHEIRANTHUS. LINN.

C. Cheiri, L. Common Wallflower.

Old walls, rocks, and ruins—April, May.

Roslin Castle, Craigmillar Castle, Dirleton Castle, Edinburgh Castle, Salisbury Crags, Currie, Ravensheugh Castle, Rocks at Burntisland, Tynningham, Falkland.

NASTURTIUM R. BR.

N. officinale, R. BR. Common White Water-Cress.

Sides of brooks and ditches—June, July.

Duddingston Loch, Pentland Hills, Kilconquhar, Drem, Dysart, North Queensferry, Dollar, North Berwick, Tynehead, Burntisland, etc.

N. sylvestre, R. BR. Creeping Yellow Water-Cress.

River banks and wet places—June–August.

Inverkeithing, Water of Leith, Loch Leven.

N. palustre, DC. Marsh Yellow Water-Cress.

Wet places—June–October.

Linlithgow, Drem, North Berwick, Kinghorn Loch, Culross, Figget Whins, Loch Leven.

BARBAREA. R. BR.

B. vulgaris, R. BR. Yellow Rocket, or Bitter Winter Cress.

Banks of streams and damp places—May–August.

Banks of Water of Leith in several places, Dunfermline, Duddingston, Kilconquhar, Dollar, Prestonpans, Arnisston, North Queensferry, Dysart, Penicuik, Currie, Kincardine, Colinton.

TURRITIS. LINN.

T. glabra, L. Tower-wort, or Long-podded Tower Mustard.

Rocks and old walls—June, July.

Cliffs in Glen Devon. Doubtful native.

ARABIS. LINN.

A. hirsuta, R. BR. Hairy Rock-Cress.

Walls, dry rocks and banks—June–August.

Pettycur, Colinton, Gullane, Salisbury Crags, Blackford Hill, Banks of Esk, Auchindinny, Inverkeithing, Dalmahoy, Tynehead, Burntisland, Kinghorn, North Queensferry, etc.

A. Turrita, L. Tower Wall-Cress.

Old walls—May.

Cleish Castle. Introduced, and now, it is believed, extirpated.

CARDAMINE. LINN.

C. impatiens, L. Narrow-Leaved Bitter-Cress.

Hilly places—July, August.

Debris of Salisbury Crags.

C. sylvatica, Link. Wood Bitter Cress, Lady's Smock.

Woody places—April–September.

Colinton, Currie, Arniston, Linlithgow, Burntisland, Penicuick, Dalkeith, etc.

C. hirsuta, L. Hairy Bitter-Cress.

Moist waste places—April–August.

Queen's Park, Roslin, Colinton, Burntisland, Water of Leith, Slateford, Penicuick, Linton, Corstorphine, etc.

C. pratensis, L. Meadow Bitter-Cress, or Lady's Smock.

Moist meadows—April, May.

Duddingston, Dalmahoy, Pentland Hills, Penicuick, North Queensferry, Linton, Tynehead, Burntisland, Falkland. Occasionally with double flowers, pink or white.

C. amara, L. Large-flowered Bitter-Cress.*Moist places by streams—May, June.*

Roslin, Dalhousie, Musselburgh, Dunfermline, Lasswade,
 Pentland Hills, Penicuik, St. Bernard's Well, Colinton,
 Falkland, Arniston.

HESPERIS. LINN.

H. matronalis, L. Common Dame's Violet.*Waste shady places—May–July.*

Roslin, Limekilns, Banks of the Water of Leith, Queen's
 Park, Colinton, Caroline Park, Woodhall, Kincardine,
 Dollar. Doubtful native.

[Malcomia maritima, R. BR. Dwarf Annual Malcomia.

Has been found at Granton, and in other places near the
 sea, but the plant is not native.]

SISYMBRIUM. LINN.

S. officinale, Scop. Common Hedge-Mustard.*Roadsides and waste places—June, July.*

Abundant. Caroline Park, Granton, Burntisland, etc.

S. Sophia, L. Flixweed, or Fine-leaved Hedge-Mustard.*Waste places—June–August.*

Claremont Crescent, Musselburgh, Inverkeithing, Water
 of Leith, Portobello, Prestonpans, Inveresk, Currie,
 Lasswade, Figget Whins.

S. thalianum, Gaud. Common Thale-Cress.*Walls and banks—April–October.*

Queen's Park, Penicuik, Kirknewton, Granton, Dalmahoy,
 Burntisland, Linlithgow, etc.

ALLIARIA. ADANS.

- A. **officinalis**, Andrzej. Common Garlick-Mustard, Sauce alone, or Jack-by-the-Hedge.

Hedges, banks, etc.—May, June.

Dalkeith, banks of Water of Leith, Queen's Park, Burntisland, Meadowbank, Gorebridge, Colinton, Penicuik, Linton, etc.

BRASSICA. LINN.

- B. **oleracea**, L. Wild Cabbage.

Banks and rocks by the sea—June—August.

Inchkeith, Inchcolm, Charleston, North Queensferry, Dysart.

- B. **campestris**, L. Wild Navew.

Corn fields—June, July.

North Berwick and Dirleton, Falkland, North Queensferry, Burntisland, Prestonpans, Kinghorn.

- B. **Rapa**, L. Common Turnip.

Borders of fields—April—July.

Braid Hills, Castle rock Edinburgh, Craiglockhart, Liberton, Aberlady, Aberdour, Linlithgow, Craighleith, Penicuik, North Queensferry.

- B. **Napus**, L. Rape or Coleseed.

Corn fields and waste places—May, June.

Castle rock Edinburgh, Figgot Whins near Portobello, Burntisland, Donibristle, Dysart.

SINAPIS. LINN.

- S. **nigra**, L. Black, or Common Mustard.

Waste places—June—August.

Inchkeith, Bridge over the Avon.

S. arvensis, L. Charlock, or Wild Mustard.*Corn fields—June—August.*

Aberlady, Gullane, Currie, Slateford, etc.

S. alba, L. White Mustard.*Corn fields and waste places—July.*

North Queensferry, Tranent, Linlithgow, Kirkcaldy, Roman Camp, Tynningham.

DILOTAXIS. DE CAND.

D. tenuifolia, DC. Wall-Rocket, or Wall-Mustard.*Old walls and rubbish heaps—June—September.*

St. David's, Inverkeithing, Elie. Doubtful native.

D. muralis, DC. Sand-Rocket.*Sandy waste places near the sea—August, September.*

Charleston, Dunfermline. Doubtful native.

[**Lunaria biennis**, Moench. Biennial Honesty.

Has been found at Dirleton and Granton, but it is not native.]

ALYSSUM. LINN.

A. calycinum, L. Madwort.*Grassy commons and debris—May, June.*

Side of road leading to Duddingston, Dirleton Common, railroad between Burntisland and Pettycur, North Queensferry Hills, Burntisland Links, shores of Loch Leven, Crichton Castle, North Berwick. Naturalized.

KONIGA. ADANS.

K. maritima, R. Br. Sea-side Koniga, or Sweet Alyssum.*Near the sea—August, September.*

Ballast hills, at St. David's and Elie. Introduced.

DRABA. LINN.

D. **muralis**, L. Speedwell-leaved Whitlow-grass.

Old walls and rocks—May.

Comely Bank, Arniston, Lasswade, Raith, Corra Linn
Lanark. Doubtful native.

D. **verna**, L. Common Whitlow-grass.

Wall tops and banks—March—May.

Salisbury Crags, Roslin, Caroline Park, Granton, Burnt-
island, Arniston, Dollar, etc.

COCHLEARIA. LINN.

C. **officinalis**, L. Common Scurvy Grass.

Sea coast—May—August.

Granton, Cramond, Inchkeith, Inchcolm, Aberdour, Burnt-
island, Musselburgh, North Queensferry, etc.

C. **danica**, L. Danish Scurvy Grass.

Barren stony places, on the sea coast—May—July.

Burntisland, Kinghorn, Cramond Island.

ARMORACIA. RUPP.

A. **rusticana**, Rupp. Common Horse-Radish.

Waste places—May.

Dalkeith, Duddingston, Craigcrook, Kinghorn. Introduced.

A. **amphibia**, Koch. Great Water Radish.

Watery places—June—August.

Duddingston Loch, Kinghorn.

CAMELINA. CRANTZ.

C. **foetida**, Fr. Common Gold-of-pleasure.

Fields and waste places—June, July.

Dunfermline, St. David's, Inverkeithing, Charleston. In-
troduced.

THLASPI. LINN.

T. arvense, L. Field Penny-Cress, or Mithridate-Mustard.

Fields, waste places, and roadsides—May–July.

North Queensferry, Burntisland, Blackness Castle, Crookston, Pettycur, Elie, Kirkcaldy, Tynehead.

TEESDALIA. R. BR.

T. nudicaulis, R. Br. Naked-stalked Teesdalia.

Sandy and gravelly places—May, June.

Braid Hills.

IBERIS. LINN.

I. amara, L. Bitter Candytuft.

Waste places and by the sea—July.

Inchcolm, Craigmillar Castle, Musselburgh, Charleston, North Queensferry. Introduced.

LEPIDIUM. LINN.

L. campestre, R. Br. Common Mithridate Pepper-wort.

Dry gravelly places—June–August.

Burntisland, Pettycur, Linlithgow, etc.

L. Smithii, Hook. Smooth Field Pepper-wort.

Hedge banks, etc.—June–August.

Roslin, Burntisland, Culross, Linlithgow, Kincardine, Kinghorn.

L. sativum, L. Common Garden Cress.

Waste places—June, July.

Debris of Salisbury Crags. Introduced.

L. ruderale, L. Narrow-leaved Pepper-wort.

Waste places near the sea—May, June.

Inverkeithing and Charleston. Introduced.

L. latifolium, L. Broad-leaved Pepper-wort.*Sandy places near the sea—July, August.*

Wemyss, Tantallon Castle, Dalgety. Doubtful native.

CAPSELLA. VENT.

C. Bursa-pastoris, DC. Common Shepherd's Purse.*Roadsides and waste places—March—October.*

Common.

SENEBIERA. PERS.

S. Coronopus, Poiret. Common Wart-Cress, or Swine's Cress.*Waste ground—June—September.*

Dirleton, Pettycur, Burntisland, Elie, Musselburgh.

S. didyma, Pers. Lesser Wart-Cress.*Waste ground—July—September.*

Burntisland. Introduced.

ISATIS. LINN.

I. tinctoria, L. Dyer's Woad.*Waste land—July.*

Aberlady, Musselburgh. Introduced.

CAKILE. GAERT.

C. maritima, Scop. Purple Sea-Rocket.*Sandy sea-shores—June, July.*Granton and Caroline Park, Kirkcaldy, Leith sands, Cra-
mond, North Queensferry, Wemyss, North Berwick.

CRAMBE. LINN.

C. maritima, L. Sea-Kale.*Sandy sea-shores—June.*

Kilconquhar, Dalmeny, Elie, Inchcolm.

RAPHANUS. LINN.

R. **Raphanistrum**, L. Wild Radish or Jointed Charlock.

Corn fields—June, July.

Newhaven, North Queensferry, Dirleton, North Berwick,
Dysart, Linton, Falkland, Drem, Gullane, etc.

N. O.—**Resedaceæ**—The Mignonette Family.

RESEDA. LINN.

R. **lutea**, L. Cut-leaved or wild Mignonette, Base Dyer's Rocket.

Waste places—June–August.

Burntisland and Pettycur, Charleston, St. Davids, debris
of Salisbury Crags, Kirkcaldy, Aberlady, Morrison's
Haven, Raith, North Berwick.

R. **suffruticulosa**, L. White-flowered Mignonette, or
Shrubby Base Dyer's Rocket.

Waste sandy places—July, August.

Salisbury Crags, Inverkeithing, Bo'ness. Introduced.

R. **Luteola**, L. Common Dyer's Rocket, Yellow Weed or
Weld.

Waste places—July, August.

Burntisland, Aberdour, Kinghorn, North Queensferry,
Roslin Castle, Craigleith, Blackford Hill, Dysart, Pres-
tonpans, Raith, Dollar, Kincardine.

N. O.—**Cistaceæ**—The Rock-rose Family.

HELIANTHEMUM. GAERT.

H. **vulgare**, Gaert. Common Rock-rose.

Dry hilly places—July–September.

Salisbury Crags and Arthur's Seat, Dalmahoy Hill, Hills
near Kinghorn, Pentland Hills, Blackford Hill, Burnt-
island, Aberdour, North Queensferry, Dollar.

N. O.—**Violaceæ**—The Violet Family.

VIOLA. LINN.

V. palustris, L. Marsh Violet.*Bogs and marshy ground—April–June.*

Ravelrig Bog and Woods, Pentland Hills, Cleish Hills, Gullane, Lomonds, Dollar, Penicuick.

V. odorata, L. Sweet Violet.*Banks and woods—March, April.*

Roslin, Colinton, Prestonpans, Slateford, Dalhousie, Clunie, Cramond, Mid-Calder.

V. hirta, L. Hairy Violet.*Woods, pastures, and moist banks—April, May.*

Blackford Hill, Gullane Links, Donibristle, North Queensferry, Inverkeithing, Auchindinny, Auchtertool, Roslin, Currie, Corstorphine, Cramond.

V. sylvatica, Fries. Wood Violet.*Woods and hedge banks—April, May.*

Roslin, Braid Hills, Colinton, Penicuick, Arniston, Dalmahoy, Dalmeny, etc.

V. canina, L. Dog Violet.*Sandy and peaty places—April, May.*

Dalumahoy, Hills near Kinghorn, Dalmeny, Blackford Hill, Salisbury Crags, North Queensferry, Pentland Hills, Linton, Dollar.

V. lutea, Huds. Yellow Mountain Violet, or Yellow Pansy.*Hilly pastures—June, July.*

Dalumahoy Hill, Pentland Hills, Lomond Hills, Queen's Park, Blackford Hill, Corstorphine Hill, Crookston, Linlithgow, Dollar.

A variety occurs with flowers all purple.

V. tricolor, L. Pansy Violet or Heartsease.*Corn fields and waste places—May–September.*

Common.

β. arvensis. Small field Pansy. Abundant in corn fields.*N. O.*—**Droseraceæ**—The Sundew Family.

DROSERA. LINN.

D. rotundifolia, L. Round-leaved Sundew.*Boggy places—July, August.*

Ravelrig Bog, Pentland Hills, North Queensferry, Knock Hill near Dunfermline, Lomond Hills, Dollar.

D. anglica, Huds. Great English Sundew.*Boggy places—July, August.*

Bog at the foot of Knock Hill near Dunfermline.

PARNASSIA. LINN.

P. palustris, L. Common Grass of Parnassus.*Bogs and marshy places—August–October.*

Ravelrig Bog, Pentland Hills, Gullane Links, Dunfermline, Habbie's Howe, Lomonds, Dollar.

N. O.—**Polygalaceæ**—The Milkwort Family.

POLYGALA. LINN.

P. vulgaris, L. Common Milkwort.*Dry hilly pastures—June–September.*

Queen's Park, Pentland Hills, Dalmahoy Hill, Hills behind Pettycur, North Berwick, Burntisland, North Queensferry, Kirknewton, Lomond Hills, Dollar, etc. The flowers occur white, pink, and blue.

N. O.—**Caryophyllaceæ**—The Clovewort, or Chickweed
Family.

DIANTHUS. LINN.

D. Armeria. Deptford Pink.

Waste places—July, August.

Field near Penicuik, Salisbury Crags, Banks of Union
Canal beyond Ratho. Probably introduced.

D. cæsius, Sm. Cheddar Pink.

Rocky ground—June, July.

Salisbury Crags. Introduced.

D. deltoides, L. Maiden Pink.

Dry hilly pastures—June–September.

Arthur's Seat, Blackford Hill, Pentland Hills, Ochil Hills,
North Berwick Law, Lomond Hills, Glen Farg, Kenno-
way.

β. glaucus, L. White Maiden Pink. Queen's Park.

[**D. barbatus,** L. Sweet William. Has been found at
Granton, Colinton, Aberdour, Roslin, Slateford, and
Coltbridge ; but the plant is not native.]

SAPONARIA. LINN.

S. officinalis, L. Common Soapwort.

Woods and waste places—July, August.

Broken bank near Inverkeithing, Roslin, Banks of the
Esk between Musselburgh and Dalkeith, Burntisland,
Charleston. Probably introduced.

SILENE. LINN.

S. anglica, L. English Catchfly.*Dry gravelly places—June–September.*

North Queensferry, side of Peebles Railway near Edinburgh, Dirleton.

β. quinquevulnera, L. Bloody-Spotted Catchfly.

Waste ground near Granton. Introduced.

S. nutans, L. Nottingham Catchfly.*Dry rocky places—June, July.*

North Queensferry.

[S. italica, Pers. Italian Catchfly.*Dry rocky places—June, July.*

Rocks east of Samson's Ribs, on Arthur's Seat, and at the "Cat Nick" on Salisbury Crags, Calton Hill. Introduced, and not native.]

S. inflata, Sm. Bladder Campion, White Bottle.*Borders of fields and roadsides—June–August.*

Currie Railway Station, Banks of Canal, Craigmillar Castle, Salisbury Crags, Dalhousie, Drem, Linlithgow, North Queensferry, Tynehead, Dysart, Falkland, Water of Leith, Dollar, etc.

A hairy variety is also found.

S. maritima, With. Sea Campion, or Catchfly.*Near the sea—June–August.*

Caroline Park, Inchkeith, Inchcolm, Cramond Island, Pettycur and Kinghorn, Kirkcaldy, North Queensferry, Bass Rock and North Berwick.

S. conica, L. Striated Corn Catchfly.*Sandy places—May, June.*

Dirleton Common, Gullane.

S. noctiflora, L. Night-flowering Catchfly.*Sandy and gravelly fields—July, August.*

Dirleton, Aberlady, Longniddry, North Queensferry, Elie, Dollar.

[S. **Armeria**, L. Common, or Lobel's Catchfly.

Waste ground—July.

Granton, Linlithgowshire. Introduced, and not native.]

LYCHNIS. LINN.

L. **Viscaria**, L. Red German Catchfly.

Dry rocks—June.

Samson's Ribs, Arthur's Seat, Blackford Hill, Orrock Hill near Burntisland, Glen Farg.

L. **Flos-cuculi**, L. Ragged Robin.

Moist places in meadows and pastures—May—July.

Duddingston Loch, Currie, North Queensferry, Lasswade, Roslin, Pentland Hills, Tynehead, Kincardine, Prestonpans, Falkland, etc.

L. **diurna**, Sibth. (L. dioica α .) Red Campion.

Damp hedge banks and woods—May—July.

Queen's Park, Currie, Colinton, Roslin, Dirleton, Blackford Hill, Hawthornden, Braid, Falkland, North Queensferry, Linlithgow, etc.

Occasionally with white flowers.

L. **vespertina**, Sibth. (L. dioica β .) White Campion.

Fields—June—August.

North Berwick, Kirkcaldy, Falkland, Penicuik, North Queensferry, Midcalder, Drem, etc.

L. **Githago**, Lam. Corn Cockle.

Corn-fields—June—August.

Corstorphine, Roman Camp near Dalkeith, Burntisland, Dirleton, Longniddry.

SAGINA. LINN.

S. **procumbens**, L. Procumbent Pearlwort.

Waste sandy places and pastures—May—September.

Common.

S. apetala, L. Annual small-flowered Pearlwort.*Walls and dry places—May–September.*

Musselburgh, Morrison's Haven.

S. ciliata, Fr. Ciliated or Fringed Pearlwort.*Dry gravelly places and walls—May–August.*

West Lomond Hill.

S. maritima, Don. Sea Pearlwort.*Sea shore—May–September.*

Cramond, Cramond Island, Gullane, Inverkeithing, Field near Luffness Burn, North Queensferry, Burntisland.

S. subulata, Wimm. Awl-shaped Pearlwort or Spurrey.*Dry sandy places—June–August.*

Dalmahoy Hills, Inverkeithing, Dalmeny, North Queensferry, West Lomond Hill.

S. nodosa, E. Meyer. Knotted Pearlwort or Spurrey.*Wet sandy places—July, August.*

Queen's Park, Pentland Hills, South Queensferry, Cockenzie, Gullane Links, Kilconquhar.

HONKENEJA. EHRH.

H. peploides, Ehrh. Ovate-leaved sea Purslane.*Sea shore, amongst sand—June–September.*

Between Caroline Park and Cramond, Pettycur, Leith Sands, Musselburgh Links, North Queensferry, Burntisland, Anstruther, North Berwick, Dysart, Aberlady.

ALSINE. WAHL.

A. verna, Jacq. Vernal Sandwort.*Hilly rocky places—May–September.*

Salisbury Crags and Arthur's Seat, Blackford Hill.

A. tenuifolia, Wahl. Fine-leaved Sandwort.*Sandy places—May, June.*

Cramond Island, Pettycur.

ARENARIA. LINN.

A. trinervis, L. Three-nerved Sandwort.*Damp shady places—May, June.*

Roslin, Colinton, Arniston, Dalhousie, Newbattle, Penicuick, Linton, Linlithgow, Burntisland, etc.

A. serpyllifolia, L. Thyme-leaved Sandwort.*Dry banks, walls and waste places—May–August.*

Salisbury Crags, North Queensferry, Caroline Park, Burntisland and Pettycur, Blackford Hill, Dysart, North Berwick, Linton, Colinton, Dalkeith, etc.

STELLARIA. LINN.

S. nemorum, L. Wood Stitchwort.*Damp woods—May, June.*

Roslin, Arniston, Dalkeith, Banks of Esk above Musselburgh, Penicuick, Dollar, etc.

S. media, With. Common Chickweed.*Cultivated ground and waste places—March–September.*

Very common.

S. Holostea, L. Greater Stitchwort.*Banks, woods and hedges—May, June.*

Roslin, Arniston, Dalkeith, Colinton.

S. glauca, With. Glaucous Marsh Stitchwort.*Marshy places—May–July.*

Duddingston Loch, Braid Hill Marshes, Dunfermline, Lochend.

S. graminea, L. Lesser Stitchwort.*Fields, woods and hedges—May–August.*

Queen's Park, Blackford Hill, Cramond Island, Arniston, Roslin, Haddington, Dollar, Prestonpans, Drem, etc.

S. uliginosa, Murr. Bog Stitchwort.*Ditches and damp places—May, June.*

Duddingston Loch, Ravelrig, Dalhousie, Penicuick, Prestonpans, Burntisland, Falkland, Tynehead, Dollar, etc.

CERASTIUM. LINN.

C. glomeratum, Thuil. Broad-leaved Mouse-ear Chickweed.*Fields and waste places—May–August.*

Dalmahoy, Queen's Park, North Queensferry, Clunie, Penicuick, Midcalder, Falkland, Linlithgow, Kirknewton, Burntisland.

C. triviale, Link. Narrow-leaved Mouse-ear Chickweed.*Pastures and waste places—May–September.*

By roadsides abundantly.

C. semidecandrum, L. Little Mouse-ear Chickweed.*Wall tops and dry places—April, May.*

Salisbury Crags, Granton, Roslin, Bass Rock, Drem, Burntisland, North Queensferry, etc.

C. tetrandrum, Curt. Four-cleft Mouse-ear Chickweed.*Walls and dry places generally near the sea—May–August.*

Arthur's Seat, Cramond Island, Pettycur, Inchkeith and Inchcolm, Prestonpans, Calton Hill, North Queensferry, Gullane, Musselburgh, Burntisland, Kinghorn, North Berwick, etc.

C. arvense, L. Field Chickweed.*Sandy places—May–August.*

Railroad bank near Pettycur, Gullane Links, Crichton Castle, Banks of Esk above Musselburgh, Strathmiglo.

N. O.—**Malvaceæ**—The Mallow Family.

MALVA. LINN.

M. moschata, L. Musk Mallow.*Gravelly places—July, August.*

Caroline Park, Lasswade, Auchindinny, Roslin, Inverkeithing, West end of Raith Pond, Prestonpans, Dollar, Yester, Glen Farg.

M. sylvestris, L. Common Mallow.*Roadsides and waste places—June–September.*

Salisbury Crags, Caroline Park, Burntisland, Pettycur, Dunbar, Gullane, Banks of Avon, Linlithgow, Raith, North Queensferry, North Berwick, Kincardine, Dysart.

M. rotundifolia, L. Round-leaved or Dwarf Mallow.*Waste places and roadsides—June–August.*

Burntisland, Cockenzie, Fisherrow Links, Prestonpans, Raith, Linton, Borthwick Castle, Kinghorn, North Berwick.

LAVATERA. LINN.

L. arborea, L. Sea Tree-Mallow.*Rocks by the sea—July–September.*

Bass Rock, Elie.

N. O.—**Tiliaceæ**—The Lime-tree or Linden Family.

TILIA. LINN.

T. europæa, L. Common Lime Tree, or Linden Tree.*Plantations and hedges—July, August.*

Colinton, Woodhall near Currie, Dalhousie, Tynningham, North Queensferry, Meadowbank, Kincardine, Prestonpans, Dalkeith, etc.

T. parvifolia, Ehrh. Small-leaved Lime Tree.*Woods—July, August.*

Cramond, Tynningham, Yester.

T. grandifolia, Ehrh. Broad-leaved downy Lime Tree.

Woods and hedges—June, July.

Lasswade, Penicuick, Yester, Falkland.

N. O.—**Hypericaceæ**—The Tutsan or St. John's Wort
Family.

HYPERICUM. LINN.

H. calycinum, L. Large-flowered St. John's Wort.

Woods—July–September.

Tynningham, north side of Raith Pond, Balcarras, Dungglass. Introduced.

H. Androsæmum, L. Common Tutsan or Park-leaves.

Woods—July, August.

Colinton, Dollar. Introduced.

H. anglicum, Bert. Large-flowered Tutsan.

Hedges and shrubby places—July–September.

Culross, Dollar. Introduced, and a doubtful native.

H. quadrangulum, L. Square-stalked St. John's Wort.

Wet places—July, August.

Duddingston, Roman Camp near Dalkeith, Roslin, Blackford, Gullane, Balcarras, Dysart, Kilconquhar, Kincardine, North Berwick, Falkland.

H. perforatum, L. Common Perforated St. John's Wort.

Woods and hedge banks—July, August.

Water of Leith, Roslin, Colinton, Queen's Park, Burntisland, Kinghorn, Falkland, Kincardine, North Queensferry, Dysart, Dollar, etc.

H. humifusum, L. Trailing St. John's Wort.

Gravelly, heathy, and boggy places—June–August.

Dalmahoy, Roslin, Ravelrig, Auchindinny, Bilston Burn, Dollar, Dysart, West Lomond Hill.

H. **hirsutum**, L. Hairy St. John's Wort.*Woods and hedge banks—July, August.*

Duddingston, Roslin, Colinton, Dalhousie, Kirkcaldy,
Aberdour, North Berwick, Falkland, Dollar, Kincardine,
Kilconquhar, Dysart.

Arthur's Seat, Salisbury Crags, Blackford, Braid, Roslin,
Arniston, North Queensferry, Dysart, Falkland, Dollar,
etc.

N. O.—**Aceraceæ**—The Maple Family.

ACER. LINN.

A. **campestre**, L. Common Maple.*Woods and hedges—May, June.*

Arniston, North Queensferry, Ormiston, Water of Leith,
Smeaton, Prestonhall, Dysart, Linlithgow.

A. **Pseudo-platanus**, L. Greater Maple or Sycamore.*Woods and hedges—May, June.*

Newhaven, Corstorphine, Colinton, Craiglockhart, Roslin.
Arniston, Auchindinny, Tynningham, Penicuik, Bal-
carras, Aberdour, Dalkeith, etc.

N. O.—**Geraniaceæ**—The Crane's-bill Family.

GERANIUM. LINN.

G. **phæum**, L. Dusky Crane's-bill.*Woods and thickets—May, June.*

Lasswade, Slateford, Colinton, near Linlithgow, Granton,
Aberdour, Prestonhall, Raith. Introduced.

G. **nodosum**, L. Knotty Crane's-bill.*Woods—May-August.*

Colinton. Introduced, and a doubtful native.

G. sylvaticum, L. Wood Crane's-bill.*Woods and thickets, and sides of rivers—June, July.*

Woodhall near Currie, Lasswade, Roslin, Auchindinny, Arniston, Hawthornden, Raith, Hopetoun, Prestonhall, Tynehead, Dollar, Meadowbank, Dalkeith.

G. pratense, L. Blue Meadow Crane's-bill.*Meadows and moist situations—June–August.*

Banks of Water of Leith, Ravelrig, Queen's Park, Gogar, Gullane, Dysart, Kincardine, Linton, etc.

G. sanguineum, L. Bloody Crane's-bill.*Rocks and stony places—July.*

Salisbury Crags and Arthur's Seat, Pettycur and Burnt-island, Gullane Links, Aberlady, Raith, Balvaird, North Queensferry.

G. pyrenaicum, L. Mountain Crane's-bill.*Pastures and waste places—June, July.*

Salisbury Crags, Aberdour, Craigmillar Castle, Queen's Park near Samson's Ribs, Corstorphine Hill, Portobello, North Queensferry.

G. pusillum, L. Small-flowered Crane's-bill.*Waste places—June–September.*

Queen's Park, Musselburgh Links, Gullane, Granton Quarry, Falkland.

G. dissectum, L. Jagged-leaved Crane's-bill.*Fields and waste places—June–August.*

Queen's Park, Duddingston, Auchindinny, Corstorphine, Ravelrig, Dunbar, Prestonpans.

G. columbinum, Long-stalked Crane's-bill.*Gravelly pastures—June, July.*

Dalmahoy Hill, banks of Water of Leith near Balerno, Queen's Park, Salisbury Crags, St. David's.

G. molle, L. Dove's-foot Crane's-bill.

Dry pastures, corn-fields and waste places—May–August.

Corstorphine, Queen's Park, Burntisland, North Queensferry, Colinton, Prestonpans, Midcalder, Drem, Granton, Tynehead, etc.

G. lucidum, L. Shining Crane's-bill.

Moist rocky places, and shady hedge banks—June–August.

Queen's Park, North Queensferry, Craiglockhart, Dalmahoy, Raith Craggs, Dollar, Glen Farg, Corstorphine.

G. robertianum, L. Stinking Crane's-bill, or Herb Robert.

Under old walls, hedges and stony waste places—June–September.

Common. Occasionally with white flowers.

ERODIUM. L'HERIT.

E. cicutarium, Sm. Hemlock-leaved Stork's-bill.

Dry sandy waste places and pastures—June–September.

Newhaven, Caroline Park, Blackford Hill, Duddingston, Arthur's Seat, Leith Links, Gullane, Burntisland, Kinghorn, Kilconquhar, North Berwick, etc.
Flowers either pink or white.

N. O.—**Linaceæ**. The Flax Family.

LINUM. LINN.

L. usitatissimum, L. Common Flax.

Cultivated fields and waste places—July.

Salisbury Craggs, Currie, Dunfermline, Queensferry, Dysart, Musselburgh Links, Lochgelly, Dirleton. Introduced.

L. perenne, L. Perennial blue Flax.

Debris, etc.—June–July.

Salisbury Craggs. Introduced.

L. catharticum, L. Purging Flax.*Dry pastures—June—August.*

Queen's Park, Roman Camp Dalkeith, Caroline Park, Queensferry, Dalmahoy, Pettycur, Dirleton, Gullane, Falkland, North Berwick, Dollar, Drem, etc.

RADIOLA. GMEL.

R. Millegrana, Sm. Thyme-leaved Flax-seed.*Damp sandy places—July, August.*

Shores of Loch Leven, Tents Muir.

N. O.—**Oxalidaceæ**—The Wood Sorrel Family.

OXALIS. LINN.

O. Acetosella, L. Common Wood Sorrel.*Woods and shady places—May, June.*

Queen's Park, Roslin, Colinton, Arniston, Penicuik, Prestonhall, Dalmahoy, Tynehead, North Queensferry, Burntisland and Aberdour, etc.

N. O.—**Balsaminaceæ**—The Balsam Family.

IMPATIENS. LINN.

I. noli-me-tangere, L. Yellow Balsam or Touch-me-not.*Damp shady places—July—September.*

Arniston woods. Introduced.

SUB-CLASS II.—CALYCIFLORÆ.

SECT. I.—POLYPETALÆ.

N. O.—**Celastraceæ**—The Spindle-Tree Family.

EUONYMUS. LINN.

E. europæus, L. Common Spindle Tree.

Woods and hedges, etc.—May, June.

Salisbury Crags and Arthur's Seat, Duddingston, Craighlockhart, Arniston, Balcarras, Colinton.

N. O.—**Staphyleaceæ**—The Bladder-Nut Family.

STAPHYLEA. LINN.

S. pinnata, L. Common Bladder-Nut.

Woods and hedges—June.

Slateford, Roslin, Colinton, Prestonhall, Woodhall near Currie, Arniston. Introduced.

N. O.—**Leguminosæ**—The Pea and Bean Family.

ULEX. LINN.

U. europæus, L. Common Furze, Whin or Gorse.

Hilly pastures and heaths—February–July.

Queen's Park, Pentland Hills, Ravelrig, Dysart, Dollar, Braid Hills, Burntisland and Pettycur, etc.

U. nanus, Forst. Dwarf or Autumnal Furze.

Dry heaths—July–November

Pentland Hills, Dollar.

GENISTA. LINN.

G. **tinctoria**, L. Dyer's Green-weed.

Pastures and borders of fields.—July–September.

Pentland Hills, Drumshorlan Moor.

G. **anglica**, L. Needle Green-weed or Petty Whin.

Moist heathy places—May, June.

Tynehead, Pentland Hills, Torryburn, Dollar.

SAROTHAMNUS. WIMM.

S. **scoparius**, Koch. Common Broom.

Banks, hills, and heaths—May, June.

Pentland Hills, Blackford, Roslin, Dalhousie, Cramond,
frequent on railway banks, etc.

ONONIS. LINN.

O. **arvensis**, L. Common Trailing Rest-Harrow.

Barren sandy places, etc.—June–September.

Queen's Park, Caroline Park, Gosford, Roman Camp,
Aberlady, North Queensferry, Pentland Hills, North
Berwick, Kilconquhar, Dollar.

Flowers occasionally white.

O. **campestris**, Koch. Spurious Rest-Harrow.

Barren places—June–September.

Salisbury Crags, Fisherrow Links.

MEDICAGO. LINN.

M. **sativa**, L. Purple Medick or Lucerne.

Banks and borders of fields—June, July.

Near Inverkeithing, banks of Canal near Edinburgh,
Figget Whins, Gorebridge, Lasswade, near Kirkcaldy,
Kilconquhar. Introduced.

M. lupulina, L. Black Medick or Nonsuch.*Waste and cultivated ground—May—August.*

Craigleith, Queen's Park, Liberton, Dalmahoy, Slateford,
Lasswade, Kirkcaldy, Yester, Burntisland, Queensferry,
etc.

M. maculata, Sibth. Spotted Medick.*Gravelly places—May—August.*

Donibristle, near Kirkcaldy.

MELILOTUS. LAM.

M. officinalis, Willd. Common Yellow Melilot.*Waste places and roadsides—June—August.*

Gullane, Roman Camp, Lasswade, Musselburgh, Burnt-
island, Aberlady, Kilconquhar.

M. arvensis, Willd. Field Melilot.*Waste places—June, July.*

St. David's, Inverkeithing, Charleston.

M. vulgaris, Willd. White Melilot.*Sandy places near the sea—July, August.*

St. David's, Red Braes Quarry, Inverkeithing, Water of
Leith, Quarry Slateford, Figget Whins.

TRIFOLIUM. LINN. *12 whorled heads red***T. pratense**, L. Common Purple Clover.*Meadows and pastures—June—September.*

Dalkeith, Queen's Park, Burntisland, Queensferry, etc.

T. medium, L. Zigzag Trefoil.*Fields, woods and waste places—June—September.*

Salisbury Crags, Dalhousie, Roman Camp, North Queens-
ferry, Yester.

T. incarnatum, L. Crimson Clover.*Waste places—June, July.*

Aberlady, Granton. Introduced.

*Common in waste places of the
lowlands, especially in
the low lying parts of the
country combined with white clover.***T. arvense**, L. Hare's Foot Trefoil.*Dry pastures and waste sandy places—July–September.*Queen's Park, Donibristle, Blackford Hill, Braid Hills,
Aberlady, North Queensferry, North Berwick, Linton,
Dollar.**T. striatum**, L. Soft Knotted Trefoil.*Dry pastures and sandy places—June, July.*Salisbury Crags, Duddingston, North Queensferry, Dun-
fermline.**T. scabrum**, L. Rough Rigid Trefoil.*Dry sandy places generally near the sea—May–July.*

Burntisland, Queen's Park, Blackford, Pettycur.

T. repens, L. Dutch or White Clover.*Meadows, pastures, and railway banks—May–September.*Queen's Park, Blackford Hill, Auchindinny, Figget Whins,
Newhaven, North Queensferry, Yester, Dysart, Drem,
etc.**T. ornithopodioides**, L. Bird's Foot Trefoil.*Dry sandy pastures—June, July.*

Musselburgh Links, Inverkeithing.

T. fragiferum, L. Strawberry-headed Trefoil.*Damp pastures—July, August.*

Aberlady Bay, Cockenzie.

T. procumbens, L. Hop Trefoil.*Dry pastures and waste gravelly places—June–August.*Dirleton, Arthur's Seat, Inverkeithing, Dundas Hill, Ravel-
ston Quarry, Falkland, Yester, Tynehead.

T. minus, Sm. Lesser Yellow Trefoil.*Dry pastures and waste places—June–August.*

Salisbury Crags, Craigcrook, Tynehead, Slateford, Dollar, Burntisland, Yester, North Queensferry.

T. filiforme, L. Slender Yellow Trefoil.*Dry pastures and waste places—June, July.*

North Queensferry, Duddingston, Craigmillar, Roslin, Inverleith, Burntisland, Dalmahoy, Gullane, Kincardine, Corstorphine.

LOTUS. LINN.

L. corniculatus, L. Common Bird's-foot Trefoil.*Pastures, dry banks, etc.—June–August.*

Queen's Park, Aberdour and Burntisland, Blackford Hill, Caroline Park, Dollar, Linlithgow, Craigleith, Roslin, Linton, etc.

Banks of Canal, Queen's Park, Morningside, Inverkeithing, Water of Leith, Roslin, Yester, Dysart, Drem, Kilconquhar, Dollar.

ANTHYLLIS. LINN.

A. Vulneraria, L. Lady's Fingers, or Kidney Vetch.*Dry pastures—June–August.*

Arthur's Seat and Salisbury Crags, between Burntisland and Pettycur, Aberdour, Blackford Hill, Craiglockhart, Tynningham, North Queensferry, North Berwick, Dysart, Lomonds, Dollar, Linlithgow.

OXYTROPIS. CAND.

O. **Halleri**, Bunge. Hairy Mountain Milk-vetch.*Dry hilly pastures—July.*

North Queensferry Hills, Bishop Hill, Lomonds.

ASTRAGALUS. LINN.

A. **hypoglottis**, L. Purple Mountain Milk-vetch.*Hilly pastures and sandy places by the sea—June, July.*

Queen's Park, Cramond Island, Kirkcaldy, North Queensferry, Caroline Park, Gullane, Seafield Tower, Gosford, Leith Links, Aberlady, Burntisland, Aberdour.

A. **glycyphyllos**, L. Sweet Milk-vetch, Wild Liquorice.*Bushy gravelly places—June.*

North Queensferry, Woodhall, Currie, Burntisland, Gullane.

VICIA. LINN.

V. **hirsuta**, Koch. Hairy Vetch or Tare.*Corn fields, pastures, etc.—June–August.*

Salisbury Crags, Blackford Hill, Dalmahoy, Aberdour, Dysart, Kilconquhar, Tynehead, Kinross.

V. **tetrasperma**, Mœnch, Smooth Vetch or Tare.*Fields—July, August.*

St. Davids, Hunter's Bog, Charleston.

V. **sylvatica**, L. Wood Vetch.*Woods and bushy places—July, August.*

Debris of Salisbury Crags, Colinton Woods, Cramond, Burntisland.

V. **Orobus**, DC. Wood Bitter Vetch.*Woods—May, June.*

Braid Hills, Lasswade, Currie, West Linton, Tynehead.

V. **Cracca**, L. Tufted Vetch.*Hedges and bushy places—June–August.*

Salisbury Crags, Blackford, Dalkeith, Auchindinny, Craighlockhart, Colinton, North Berwick, Dysart, Yester, Linton, Prestonpans, Drem, Kincardine, Kilconquhar, etc.

V. **sepium**, L. Bush Vetch.*Woods and hedges—June, July.*

Debris of Salisbury Crags, Arniston, Ravelrig, Braid Hills, Donibristle, North Queensferry, Penicuik, Burntisland, Prestonpans, Linton, Dalmahoy, Dysart, Yester, etc.

V. **lutea**, L. Rough-podded Yellow Vetch.*Stony places by the sea—June–August.*

North Queensferry.

V. **sativa**, L. Common Vetch.*Corn fields and pastures—May, June.*

St. David's, Inchcolm, North Berwick, Craigleith, Salisbury Crags, Dalmahoy, North Queensferry, Tynehead, Kinross.

 β . **angustifolia**, Dalmahoy, St. Davids. γ . **Bobartii**, Arthur's Seat, St. Davids, Midcalder.V. **lathyroides**, L. Spring Vetch.*Dry sandy pastures—May, June.*

Salisbury Crags, Dalmahoy, Glencorse, near Rosyth Castle, Blackford Hill, Burntisland, North Queensferry.

LATHYRUS. LINN.

L. **pratensis**, L. Yellow Meadow Vetchling.*Meadows, pastures, and hedges—July, August.*

Colinton, Liberton, Queen's Park, Currie, Slateford, Ravelrig, Tynningham, Prestonpans, Kilconquhar, Dysart, North Queensferry, Drem, Kincardine, Tynehead, Arniston, North Berwick, Falkland, etc.

L. **sylvestris**, L. Narrow-leaved Everlasting Pea.*Waste bushy places—July–September.*

Debris of Salisbury Crags, Caldron Linn, Dollar,

L. latifolius, L. Broad-leaved Everlasting Pea.*Woods and waste places—July, August.*

Queen's Park, Salisbury Crags. Introduced.

Doubtful if now to be found.

L. macrorhizus, Wimm. Tuberos Bitter Vetch.*Woods, and mountain thickets—June, July.*

Dalmahoy, Braid Hills, Queen's Park, Arniston, Tynehead, North Queensferry, Roslin, Auchindinny, Currie, Falkland, Drem, Dalhousie, Cramond, between Pettycur and Burntisland.

β. tenuifolius. Salisbury Crags.

ORNITHOPUS. LINN.

O. perpusillus, L. Common Bird's foot.*Dry sandy pastures—June, July.*

North Queensferry, Musselburgh, Dollar.

ONOBRYCHIS. GAERT.

O. sativa, Lam. Common Saintfoin, or Cocks-head.*Dry sandy places—June, July.*

Near Newhaven, Sandy Hills near Belhaven.

N. O.—Rosaceæ.—The Rose Family.

PRUNUS. LINN.

P. communis, Huds. Common Plum.*Woods, hedges, and rocks—April, May.***α. spinosa**, Sloe or Blackthorn. Salisbury Crags and Arthur's Seat, Pentland Hills, Dalkeith Woods, Arniston, Dalhousie, Roslin, Slateford, Burntisland, Donibristle, Tynehead, Dalmahoy, Dollar.

P. **officinalis**, L. Common Lungwort.

Woods and thickets—May.

Arniston, Banks of North Esk near Kevock Mill, Currie,
Burntisland. Probably introduced.
Sometimes with white flowers.

MERTENSIA. ROTH.

M. **maritima**, Don. Oyster Plant or Seaside Smooth
Gromwell.

Sea coast among sand and stones—May—August.

Seafield Tower, Crail, Elie, near Dunglass.

LITHOSPERMUM. LINN.

L. **officinale**, L. Common Gromwell.

Dry waste places—June—August.

Arniston, Roslin, Roman Camp near Dalkeith, Culross,
Dirleton.

L. **arvense**, L. Corn Gromwell or Bastard Alkanet, or
Salfern.

Corn fields and waste ground—May, June.

Slateford, Portobello, Caroline Park, Dalkeith, Queensferry,
Drem, Burntisland, etc.

MYOSOTIS. LINN.

M. palustris, With. Water Scorpion-Grass or Forget-me-not.

Ditches and sides of rivers—June–August.

Duddingston, Dunfermline, Roslin, Mid-Calder, Tynehead, Queensferry, Dollar, etc.

β . **strigulosa**. Duddingston Loch.

M. repens, Don. Creeping Water Scorpion-Grass.

Boggy places—June–August.

Dunfermline, Lomond Hills, Pentland Hills.

M. cæspitosa, Schultz. Tufted Water Scorpion-Grass.

Watery places—June–August.

Duddingston, Kincardine, Dunfermline, Loch Leven, Culross, North Queensferry, Yester, etc.

M. sylvatica, Ehrh. Upright Wood Scorpion-Grass.

Dry shady places—May, June.

Roslin, Arniston, Dalkeith, Dalhousie, Inveresk, Penicuick.

M. arvensis, Hoffm. Field Scorpion-Grass.

Cultivated ground, hedge banks, etc.—June–August.

Queen's Park, Queensferry, Burntisland, Currie, etc.
Common.

M. collina, Hoffm. Early Field Scorpion-Grass.

Dry banks—April, May.

Queen's Park, Blackford Hill, Braid, Dalmeny, Queensferry, Burntisland, North Berwick, Dalmahoy, etc.

M. versicolor, Ehrh. Yellow and Blue Scorpion-Grass.

Dry banks and meadows—May, June.

Queen's Park, Dalmeny, Dalmahoy, Penicuick, North Queensferry, Drem, Burntisland, etc.

[**Omphalodes verna**, Mœnch. Blue Venus' Navel-wort.

Has been gathered near Roslin, and at other places near Edinburgh; but it is an escape from gardens.]

N. O.—**Solanaceæ**—The Potato Family.

SOLANUM. LINN.

S. **Dulcamara**, L. Woody Nightshade or Bitter-Sweet.*Moist hedges and thickets—June–August.*

Aberdour, Aberlady, Musselburgh, Culross, Lomonds, Kinghorn, Roslin, Dalkeith, Burntisland, Prestonhall, etc.

S. **nigrum**, L. Black Nightshade.*Waste places—June–October.*

Near Portobello, St. Andrews. Introduced.

N. O.—**Atropaceæ**—The Deadly Nightshade Family.

ATROPA. LINN.

A. **Belladonna**, L. Common Dwale or Deadly Nightshade.*Waste places—June–August.*

Between Aberdour and Donibristle, Charleston, Borthwick Castle, Limekilns, Inchcolm.

HYOSCYAMUS. LINN.

H. **niger**, L. Common Henbane.*Waste places—June–August.*

Debris of Salisbury Crags, between Prestonpans and Cockenzie, Aberlady, Gullane, between Burntisland and Aberdour, Inchkeith, Inchcolm, Wemyss Castle.

N. O.—**Orobanchaceæ**—The Broom-rape Family.

OROBANCHE. LINN.

O. **rubra**, Sm. Red Broom-rape.*Parasitical on Thyme—July, August.*

Seafeld Tower between Kirkcaldy and Kinghorn, Cliff below St. Davids, near Burntisland.

LATHRÆA. LINN.

L. **squamaria**, L. Greater Toothwort.

Woods, parasitical upon the roots of Hazel, Cherry-laurel, etc.—April, May.

Roslin, Arniston, Dalkeith, Dalhousie, banks of Esk near Kevock Mill.

N. O.—**Scrophulariaceæ**—The Figwort Family.

VERBASCUM. LINN.

V. **nigrum**, L. Dark Mullein.

Banks and waysides—June–October.

Bogle Hill east of Cockenzie, between Seaton and Gosford, Banks of Esk, Borthwick Castle, Gullane. Introduced.

V. **Thapsus**, L. Great Mullein or High-taper.

Waste ground—July, August.

Blackford Hill, Dalmeny Park, Inchcolm, Wemyss, North Berwick, Kinross, Dysart, Stirling Castle.

DIGITALIS. LINN.

D. **purpurea**, L. Purple Fox-glove or Folks-glove.

Dry banks and woods—June–August.

Roslin, Habbie's Howe, Blackford, Craigleith, Burntisland, North Queensferry, etc.

ANTIRRHINUM. LINN.

A. **majus**, L. Great Snapdragon.

Old walls—July–September.

Duddingston, Portobello, Woodhall, Craigmillar Castle, Roslin, Burntisland. Introduced.

LINARIA. MILL.

L. **Cymbalaria**, Mill. Ivy-leaved Toad-flax.

Old walls—May—October.

Trinity Road, Ravelston, Cleish, debris of Salisbury Crags, Portobello, Dirleton, Meadowbank, Seafield Tower, Burntisland, Dunfermline, Dysart.

L. **repens**, Ait. Creeping Pale-blue Toad-flax.

Banks and rocks generally near the sea—July—September.

Banks of Esk above Musselburgh, Salisbury Crags, wall at Duddingston, and at Trinity. Naturalised.

L. **vulgaris**, Mill. Yellow Toad-flax.

Hedges and borders of fields—July—September.

Banks of Canal, Water of Leith, Slateford, Railway banks near Dalkeith, Queen's Park, Blackford Hill, Loanhead, North Berwick, Drem, etc.

SCROPHULARIA. LINN.

S. **nodosa**, L. Knotted Figwort.

Woods and moist places—June—August.

Queen's Park, Water of Leith, Burntisland, Inchcolm, Banks of Almond, Newbattle, etc.

S. **Ehrharti**, C. A. Stev. Ehrhart's Figwort.

Wet places—July—September.

Banks of Almond at Cramond Bridge, Pentland Hills.

S. **aquatica**, L. Water Figwort or Water Betony.

Wet places—July, August.

Side of stream near Burntisland, Gogar Burn, near Hoptoun House, Kincardine.

S. **vernalis**, L. Yellow Figwort.

Waste places—April—June.

Gosford, Cleish Castle, Hatton, Dalkeith, Woodhall, Aberdour, Newbattle, Kinghorn, North Berwick, Glenfarg.

LIMOSELLA. LINN.

L. aquatica, L. Common Mudwort.

Muddy places—July–September.

Ponds at Gullane and Drem.

MELAMPYRUM. LINN.

M. pratense, L. Yellow Cow-wheat.

Woods and thickets—May–August.

Roslin, Auchindinny, Tynehead, Dollar, etc.

M. sylvaticum, L. Small-flowered Yellow Cow-wheat.

Woods—July.

Near West Calder.

[**Mimulus luteus**, Willd. Yellow Mimulus.

Has been found naturalised in wet places at Arniston, Roslin, Pentlands, Raith, Crookston, Musselburgh, Water of Leith, North Queensferry, Tynehead.]

PEDICULARIS. LINN.

P. palustris, L. Marsh Louse-wort or Red Rattle.

Wet and marshy pastures—May–September.

Duddingston, Gullane, Pentland Hills, Ravelrig, etc.

P. sylvatica, L. Pasture Louse-wort.

Wet pastures and heaths—April–July.

Ravelrig, Pentland Hills, Penicuik, Dunfermline, etc.

RHINANTHUS. LINN.

R. Crista-galli, L. Common Yellow Rattle or Cock's Comb.

Meadows and pastures, parasitical on roots of grasses—May–July.

Duddingston, Blackford and Braid Hills, Roslin, Lasswade, North Queensferry, etc. Common.

R. **major**, Ehrh. Large Bushy Yellow Rattle.

Waste places and cultivated ground—July, August.

Leven Links.

EUPHRASIA. LINN.

E. **officinalis**, L. Common Eye-bright.

Pastures, woods and heaths—June–August.

Queen's Park, Pentland Hills, Braid Hills, Gullane, Dalma-
hoy, Queensferry, etc. Common.

E. **Odontites**, L. Red Eye-bright.

Corn fields and waste places—July, August.

Slateford, Banks of Canal, Duddingston, Aberlady, Kil-
conquhar, North Berwick, etc. Common.

VERONICA. LINN.

V. **scutellata**, L. Marsh Speedwell.

Wet places and sides of ditches—July, August.

Duddingston Loch, Braid Hills, North Queensferry, Currie,
Pentland Hills, Lomond Hills, etc.

V. **Anagallis**, L. Water Speedwell.

Ditches and watery places—July, August.

Duddingston, Longniddry, Luffness, Gullane, Burntisland,
Kilconquhar, Strathmiglo.

V. **Beccabunga**, L. Brooklime.

Ditches and streams—May–September.

Duddingston, Ravelrig, North Queensferry, Dalkeith,
Burntisland, etc.

β. limosa. Smeaton, near Dalkeith.

V. **Chamædrys**, L. Germander Speedwell.

Hedge banks, woods and pastures—May, June.

Queen's Park, etc. Very common.

- V. montana**, L. Mountain Speedwell.
Moist woods—May, June.
 Arniston, Dalkeith, Prestonhall, Dalhousie, Roslin, Penicuick, etc.
- V. officinalis**, L. Common Speedwell.
Dry pastures and woods—May–July.
 Queen's Park, Arniston, Roslin, North Queensferry, etc.
 Common.
- [**V. fruticulosa**, L. Flesh-coloured Speedwell.
Woods—July.
 Melville Woods. Introduced.]
- V. serpyllifolia**, L. Thyme-leaved Speedwell.
Pastures and waysides—May, June.
 Queen's Park, etc. Very common.
- V. arvensis**, L. Wall Speedwell.
Dry fields and walls—April–July.
 Queen's Park, Craigcrook, near Merchiston Castle, Dundas Hill, Drem, Queensferry, etc.
- V. agrestis**, L. Green Procumbent Field Speedwell.
Fields and waste places—April–September.
 Currie, Craigmillar, Queen's Park, Burntisland, Inverkeithing, etc.
- V. polita**, Fries. Gray Field Speedwell.
Fields and waste places—April–September.
 Portobello, Inverkeithing, Balmuto, Longniddry, Burntisland, Queensferry.
- V. Buxbaumii**, Ten. Buxbaum's Speedwell.
Fields and cultivated places—April–September.
 Near Granton, Burntisland, Dunfermline, Longniddry, St. Davids, Rosyth Castle, Dollar. Doubtful native.
- V. hederifolia**, L. Ivy-leaved Speedwell.
Fields and banks—April–August.
 Liberton, Blackford Hill, Slateford, Dirleton, Penicuick, Burntisland, Queensferry, etc. Common.

N. O.—**Labiatae**—The Dead Nettle Family.

MENTHA. LINN.

M. rotundifolia, L. Round-leaved Mint.*Moist waste places—August, September.*Auchindinny, Tynehead, Curriehill, banks of Esk above
Musselburgh. Probably introduced.**M. sylvestris**, L. Horse Mint.*Waste ground in damp places—August, September.*

Gogar Burn, Tynehead.

β. velutina. Tynehead, Prestonpans.**M. viridis**, L. Spear Mint.*Marshy places—August.*Cairnhill, Pentlands, Musselburgh, Crookston, Mid-Calder,
Tynehead, Glenfarg, Granton. Introduced.**M. piperita**, Sm. Pepper Mint.*Wet places—August, September.*

Arniston, North Queensferry, near Crookston.

M. aquatica, L. Water Capitate Mint.*Marshes and river sides—July, August.*Duddingston Loch, Pentland Hills, Ravelrig, Mid-Calder,
Granton, etc.**β. crispa.** Variety with crisped leaves. Near Alloa.**M. pratensis**, Sole. Narrow-leaved Mint.*Wet places—August, September.*

Lasswade, Hawthornden, Colinton.

M. sativa, L. Whorled Hairy Mint.*Wet places—July, August.*

North Queensferry, Arniston, Roslin, Dollar, etc.

β. rubra. Banks of Esk above Musselburgh.

M. arvensis, L. Corn Mint.*Corn fields—July–September.*Colinton, Craigcrook, Gorebridge, Dalhousie, Luffness,
North Berwick, Dollar, etc.**M. Pulegium**, L. Penny-royal.*Wet places—August, September.*

Sides of springs on the Pentland Hills. Doubtful native.

SALVIA. LINN.

S. verbenaca, L. Wild English Clary or Sage.*Dry gravelly banks—May, June.*Salisbury Crags, Burntisland, Kinghorn and Pettycur,
Kirkcaldy.

ORIGANUM. LINN.

O. vulgare, L. Common Marjoram.*Dry hilly and waste places—July, August.*Burntisland, Aberdour, Raith Woods, Arniston, Roslin,
Water of Leith, Linton, Strathmiglo, etc.

THYMUS. LINN.

T. Serpyllum, L. Wild Thyme.*Hills and dry pastures—June, August.*Queen's Park, Braid Hills, Blackford, Pentlands, Dalma-
hoy, Newbattle, Burntisland, etc.**β. Chamædrys.** Gullane and North Berwick.

CALAMINTHA. MÖENCH.

C. Acinos, Clairv. Common Basil Thyme.*Dry gravelly places and cultivated fields—July, August.*Debris of Salisbury Crags, Samson's Ribs, North Queens-
ferry, Aberlady, Dirleton.

C. **Clinopodium**, Benth. Common Wild Basil.*Hilly places—July–September.*Burntisland, Blackford, Slateford, Roslin, Woodcockdale,
Raith, etc.

SCUTELLARIA. LINN.

S. **galericulata**, L. Common Skull-cap.*Banks of rivers—July, August.*

Foot of Dundas Hill, Leadburn.

PRUNELLA. LINN.

P. **vulgaris**, L. Common Self-heal.*Moist and barren pastures—July, August.*

Queen's Park, etc. Very common.

NEPETA. LINN.

N. **Cataria**, L. Cat Mint.*Woods and waste places—July–September.*

Woods near Culross. Introduced.

N. **Glechoma**, Benth. Ground Ivy.*Hedges and waste places—March–May.*

Queen's Park, Colinton, Roslin, etc. Very common.

LAMIUM. LINN.

L. **amplexicaule**, L. Henbit Dead Nettle.*Sandy fields and waste places—May–August.*Duddingston, Dalkeith, Musselburgh, Roslin, Queensferry,
Gullane, etc.L. **intermedium**, Fries. Intermediate Dead Nettle.*Waste places—June–September.*Duddingston, Hunter's Tryst, Luffness, Balgreen, North
Queensferry, etc.

L. incisum, Willd. Cut-leaved Dead-nettle.*Cultivated and waste ground—March—June.*

Duddingston, Roslin, Queensferry, between Merchiston Castle and Colinton, Penicuick, Burntisland, etc.

L. purpureum, L. Red Dead-nettle.*Waste and cultivated ground—May—August.*

Queen's Park, Queensferry, Slateford, etc. Common.

L. album, L. White Dead-nettle.*Borders of fields and waste places—May—September.*

Queen's Park, Musselburgh, Colinton, Penicuick, etc. Common.

L. maculatum, L. Spotted Dead-nettle.*Waste ground—June—August.*

Roslin, Dalkeith, Musselburgh, Dunfermline, Charleston, Kilconquhar, North Queensferry, Granton, Dollar.

L. Galeobdolon, Crantz. Yellow Weasel-snout or Archangel.*Woods and shady places—April—June.*

Lomond Hills, Dunglass. Introduced.

LEONURUS. LINN.

L. Cardiaca, L. Common Motherwort.*Waste places and hedges—July—September.*

Water of Leith near Stockbridge, near Fisherrow, Colinton Woods, North Queensferry. Introduced.

GALEOPSIS. LINN.

G. Ladanum, L. Red Hemp-nettle, Ironwort.*Gravelly and sandy places—August, September.*

Roman Camp above Newbattle, Oxenford Castle, Crossgate Toll, Charleston, Dunfermline.

G. Tetrahit, L. Common Hemp-nettle.*Corn fields and cultivated ground—July–September.*

Duddingston, etc. Common.

G. versicolor, Curt. Large-flowered Hemp-nettle.*Cultivated ground—July, August.*

Duddingston, Lasswade, Lochend, Braid Hills, Blackford, Slateford, Coltbridge, Crookston, Dysart, etc.

STACHYS. LINN.

S. Betonica, Benth. Wood Betony.*Woods and thickets—June–August.*

Colinton, Auchindinny, Dundas Hill, Strathmiglo.

S. sylvatica, L. Hedge Woundwort.*Woods and shady places—July, August.*

Queen's Park, Blackford, Water of Leith, Roslin, Burntisland, etc. Common.

S. palustris, L. Marsh Woundwort, Clown's All-heal.*Watery moist places—July, August.*

Duddingston, Roslin, etc. Common.

β. ambigua. Lasswade, Habbie's Howe, Pentlands, Auchindinny, North Berwick.**S. arvensis**, L. Corn Woundwort, Petty All-heal.*Dry corn fields—August, September.*

Pentlands, North Queensferry, Dysart, Dollar.

BALLOTA. LINN.

B. foetida, Lam. Stinking Horehound.*Waste places—July, August.*

Queen's Park, Preston Castle, Burntisland, Aberlady, Dysart, Charleston.

MARRUBIUM. LINN.

M. vulgare, L. White Horehound.

Waste places—August, September.

Burntisland, Fisherrow, Gullane, Longniddry, Inchkeith,
Inchcolm, North Queensferry. Introduced.

TEUCRIUM. LINN.

T. Scorodonia, L. Wood Germander or Sage.

Woods and dry stony places—July, August.

Queen's Park, Roslin, Pentlands, Burntisland, etc.

AJUGA. LINN.

A. reptans, L. Common Bugle.

Moist pastures and woods—May, June.

Roslin, Auchindinny, Aberdour, Arniston, etc.
Flowers occasionally white.

N. O.—**Verbenaceæ**—The Vervain Family.

VERBENA. LINN.

V. officinalis, L. Common Vervain.

Waste ground—July, August.

Inverkeithing, St. Davids. Introduced.

N. O.—**Lentibulariaceæ**—The Butterwort Family.

PINGUICULA. LINN.

P. vulgaris, L. Common Butterwort.

Boggy places—May–July.

Ravelrig, Pentland Hills, Gullane, Dunfermline, Lomond
Hills, etc.

UTRICULARIA. LINN.

U. **vulgaris**, L. Greater Bladderwort.

Ditches and deep pools—June, July.

Gullane, Ravelrig, Loch Leven.

U. **minor**, Lesser Bladderwort.

Ditches and pools—June–September.

Ravelrig, Pentland Hills, Lomond Hills, Logan Hill.

N. O.—**Primulaceæ**—The Primrose Family.

PRIMULA. LINN.

P. **vulgaris**, Huds. Common Primrose.

Woods, banks, and pastures—April, May.

Colinton, Roslin, etc. Common.

β. caulescens. Colinton, North Queensferry, Auchtertool, Aberdour, Dalkeith, etc.

P. **veris**, L. Common Cowslip or Paigle.

Meadows and pastures—April, May.

Roslin, Arniston, Queensferry, Caroline Park, Prestonpans, Donibristle, Burntisland, Kinghorn, Dalmeny, etc.

P. **farinosa**, L. Bird's-Eye Primrose.

Hilly pastures—June, July.

Bridgehouse near West Linton, 18 miles from Edinburgh.

LYSIMACHIA. LINN.

L. **thyrsiflora**, L. Tufted Loose-strife.

Marshy places—July.

Canal near Falkirk.

L. vulgaris, L. Great Yellow Loose-strife.*Wet shady places and sides of rivers—July, August.*

Near Dunfermline, Carlowrie Woods, Linlithgow, Blackhall, Lochgelly, Donibristle, Callander. Doubtful native.

[**L. ciliata**, L. Fringed Loose-strife.

Is occasionally found as an escape from gardens.]

L. Nummularia, L. Creeping Loose-strife, Moneywort, or Herb-twopence.*Shady places—June, July.*

Craigmillar, Caroline Park, Roslin, Balerno, Dalkeith, Gogar. Introduced.

DAPHNE. LINN.

D. **Mezereum**, L. Common Mezereon.

Woods—February, March.

Dalhousie, Roslin. Introduced.

D. **Laureola**, L. Spurge Laurel, Lowry.

Woods—February–April.

Colinton, Roslin, Arniston, Dalkeith, Dysart. Introduced.

N. O.—**Aristolochiaceæ**—The Birthwort Family.

ASARUM. LINN.

A. europæum, L. Asarabacea.*Woods—May.*Colinton, West Binny near Linlithgow, Burntisland.
Introduced.*N. O.*—**Empetraceæ**—The Crowberry Family.

EMPETRUM. LINN.

E. nigrum, L. Black Crowberry or Crakeberry.*Heaths and hilly places—May.*Ravelrig, Pentland Hills, near Dunfermline, Habbie's
Howe, Lomond Hills, Tynehead, Dollar.*N. O.*—**Euphorbiaceæ**—The Spurgewort Family.

BUXUS. LINN.

B. sempervirens, L. Common Box.*Woods—April—June.*

Dalkeith, Arniston, Balcarras, Colinton. Introduced.

EUPHORBIA. LINN.

E. Helioscopia, L. Sun Spurge.*Waste and cultivated ground—June—October.*

Gullane, Queensferry, fields near Edinburgh. Common.

E. Cyparissias, L. Cypress Spurge.*Woods—June, July.*

Colinton, Dunfermline. Introduced.

E. Esula, L. Leafy-branched Spurge.*Woods—June, July.*Duddingston, Aberdour, Gladsmuir Kirk, Abercorn, Had-
dington.

E. Peplus, L. Petty Spurge.*Cultivated and waste ground—July–November.*Musselburgh, Fisherrow, Newhaven, corn fields near
Edinburgh. Common.**E. exigua**, L. Dwarf Spurge.*Corn fields—July–October.*Queensferry, Burntisland, Charleston, Musselburgh, Dysart,
Yester.**E. Lathyris**, L. Caper Spurge.*Woody places and cultivated ground—June, July.*

Inverkeithing, near Dunfermline. Introduced.

[**E. purpurata**, Thuill. Purple Spurge.Is found near Tullibody, Ochils. Introduced; and not
native.]

MERCURIALIS. LINN.

M. perennis, L. Perennial or Dog's Mercury.*Woods and shady places—March–May.*

Queen's Park, Colinton, Braid, etc. Very common.

M. annua, L. Annual Mercury.*Waste places near towns—July–November.*

Near Burntisland, Tranent.

N. O.—**Callitrichaceæ**—The Starwort Family.

CALLITRICHE. LINN.

C. verna, L. Vernal Water Starwort.*Ditches, pools, and slow streams—April–August.*Duddingston, Lochend, Pentlands, Linlithgow, Tynehead,
Midcalder, etc.**C. platycarpa**, Kutz. Broad-fruited Water Starwort.*Wet muddy places—May–September.*North Queensferry, Tynehead, Penicuik, Drem, Kincardine,
North Berwick.

C. autumnalis, L. Autumnal Water Starwort.*Ditches and lakes—June–October.*

Near Midcalder, Kinghorn Loch.

N. O.—**Ceratophyllaceæ**—The Hornwort Family.

CERATOPHYLLUM. LINN.

C. demersum, L. Common Hornwort.*Streams, ponds, and ditches—June, July.*Ditch round Duddingston Loch, Canal, Dunsappie Loch,
etc.**C. submersum**, L. Unarmed Hornwort.*Lochs and ditches—June, July.*

Linlithgow Loch.

N. O.—**Urticaceæ**—The Nettle Family.

PARIETARIA. LINN.

P. officinalis, L. Common Wall Pellitory.*Old walls and waste places—June–September.*Water of Leith near gas-works, Burntisland, Inverkeithing,
Craigmillar, Inchcolm, etc.

There are erect and spreading varieties of this plant.

URTICA. LINN.

U. urens, L. Small Nettle.*Waste places and cultivated ground—June–September.*Queen's Park, Musselburgh, Burntisland, Midcalder,
Queensferry, Drem, etc.**U. dioica**, L. Great Nettle.*Waste places and hedge banks—June–September.*

Queen's Park, Colinton, etc. Common.

HUMULUS. LINN.

H. Lupulus, L. Common Hop.

Hedges and thickets—July, August.

Duddingston, Water of Leith at Canonmills Bridge, Lasswade, North Queensferry, banks of Esk near Inveresk, Clunie, Dalkeith, Tynehead. Introduced.

N. O.—**Ulmaceæ**—The Elm Family.

ULMUS. LINN.

U. suberosa, Ehrh. Common Elm.

Woods and hedges—March–May.

The Meadows, Colinton, Dalkeith, Penicuick.

U. montana, With. Wych Elm.

Woods and hedges—March, April.

Duddingston, Ravelston, Dalkeith, Penicuick, Midcalder, Craigleith, etc.

N. O.—**Myricaceæ**—The Gale Family.

MYRICA. LINN.

M. Gale, L. Sweet Gale, Bog or Dutch Myrtle.

Bogs and moory places—May–July.

Ravelrig, Pentlands, Ochils, Lomonds, near Dunfermline, near Inverkeithing.

N. O.—**Salicaceæ**—The Willow Family.

SALIX. LINN.

S. pentandra, L. Sweet Bay-leaved Willow.

Banks of rivers and wet places—May, June.

Water of Leith near Ravelrig, Roslin, banks of Esk, Lasswade, Kirkliston, Carlowrie, Pentland Hills, Midcalder, Tynehead.

S. fragilis, L. Crack-Willow*Marshy places—April, May.*

Colinton, Roslin, Ravelrig, Penicuick, Drem, Midcalder, Inveresk.

S. Russelliana, Sm. Bedford Willow.*Wet places—April, May.*

Water of Leith, Colinton, Roslin, Musselburgh, Lasswade, Coltbridge, Duddingston, Corstorphine, Arniston, Dalkeith, Kinross, Linlithgow.

S. alba, L. Common White Willow.*River sides and moist woods—May.*

Craighouse, Water of Leith, Roslin, Duddingston, Cramond.

S. triandra, L. Blunt-stipuled Triandrous Willow.*Banks of rivers, wet places, and osier ground—April–June.*

Craigcrook, Coltbridge, Saughton Hall, Granton.

S. purpurea, L. Purple Willow.*Marshes and banks of rivers—March–May.*

Inveresk, Water of Leith.

S. Lambertiana, Sm. Boyton Willow.*River banks and marshy places—March–May.*

Near Kirkliston, Coltbridge, Inveresk.

S. Helix, L. Rose Willow.*Marshes and banks of rivers—March, April.*

Duddingston, Corstorphine, Inveresk, Dalkeith, Kirknewton, Penicuick, Ravelrig.

S. viminalis, L. Common Osier.*Wet places and osier ground—April, May.*

Dalmeny, Duddingston, Ravelrig, Roslin, Pentland Hills, Dalkeith, Inveresk.

S. Smithiana, Willd. Silky-leaved Osier.*Meadows and wet places—April, May.*Ravelrig, Dalkeith, Banks of Esk, North Queensferry,
Penicuick, Mid-Calder, Linlithgow, Inveresk.**S. acuminata**, Sm. Long-leaved Sallow.*Moist woods and hedges—April, May.*

Banks of Esk near Musselburgh, Colinton woods.

S. cinerea, L. Gray Sallow.*Wet places and moist woods—March, April.*Colinton, Dalkeith, Roslin, Dalmahoy, Dalhousie, North
Queensferry, Kirknewton.**β. aquatica.** Roman Camp, Dalkeith, Duddingston,
Falkland, Mid-Calder.**S. aurita**, L. Round-eared Sallow.*Damp woods—April, May.*

Dalkeith, Newbattle, Mid-Calder, Penicuick, Falkland, etc.

S. Caprea, L. Great Round-leaved Sallow.*Woods, hedges, and pastures—April, May.*Water of Leith, Lasswade, Newbattle, Penicuick, Mid-
Calder, etc.**S. phyllicifolia**, L. Tea-leaved Willow.*Banks of streams—April, May.*

S. repens, L. Dwarf Creeping Silky Willow.*Heaths and bogs—April, May.*Ravelrig, Pentland Hills, Drumshorlan Moor, Dreghorn,
Newbattle, Lomond Hills, Dunfermline, etc.**S. herbacea**, L. Least Willow.*Alpine situations—June.*

Summit of Ben Clach, Ochils.

POPULUS. LINN.

P. alba, L. Great White Poplar or Abele.*Damp woods—March, April.*

Dalmeny, Cramond, Habbie's Howe, Juniper Green, Kin-cardine, Kilconquhar, Dalkeith, Dysart. Probably introduced.

P. tremula, L. Trembling Poplar or Aspen.*Woods—March, April.*

Roslin, Habbie's Howe, Dunfermline.

P. nigra, L. Black Poplar.*River banks and damp places—March, April.*

Water of Leith, Colinton, Roslin, Ratho. Introduced.

N. O.—**Betulaceæ**—The Birch Family.

BETULA. LINN.

B. alba, L. White Birch.*Woods and heathy places—April, May.*

Roslin, Auchindinny, Colinton, Ravelrig, Corstorphine, Kirknewton, etc.

B. glutinosa, Fries. Common Birch.*Woods and hilly places—April, May.*

Colinton, Roslin, Ravelrig, Auchindinny, etc.

ALNUS. TOURN.

A. glutinosa, Gært. Common Alder.*Wet places and river banks—March, April.*Roslin, Arniston, Cramond, Dalkeith, Tynningham, etc.
Common.

N. O.—**Corylaceæ**—The Hazel Family.

FAGUS. LINN.

F. sylvatica, L. Common Beech.*Woods—March, April.*

Roslin, Auchindinny, Colinton, Duddingston, Dalmahoy, Aberdour, Dalkeith, Hopetoun, etc.

CASTANEA. TOURN.

C. vulgaris, Lam. Sweet or Spanish Chestnut.*Woods—May–July.*

Colinton, Aberdour, Hopetoun, Kilconquhar, etc. Introduced.

QUERCUS. LINN.

Q. Robur, L. Common British Oak.*Woods and hedges—April, May.*

Corstorphine, Colinton, Roslin, Auchindinny, Arniston, Carlowrie, Hopetoun, etc.

β. sessiliflora. Roslin, Auchindinny, Yester.

CORYLUS. LINN.

C. Avellana, L. Common Hazel Nut.*Woody places and hedges—February–April.*

Roslin, Auchindinny, Colinton, Arniston, Dalkeith, Penicuik, Duddingston, etc. Common.

CARPINUS. LINN.

C. Betulus, L. Common Hornbeam.*Damp clayey woods and hedges—May.*

Roslin, Habbie's Howe, Colinton, Dalkeith, Kirknewton.

SECT. II.—GYMNOSPERMÆ OR GYMNOGENÆ.

N. O.—**Coniferae**—The Pine Family.

JUNIPERUS. LINN.

J. communis, L. Common Juniper.

Hilly heathy places—May.

Pentland Hills, Auchindinny, Queen's Park, Kirknewton,
Tynehead, Dollar, etc.

PINUS. LINN.

P. sylvestris, L. Scotch Fir.

Woods—May, June.

Blackford, Craiglockhart, Roslin, Dreghorn, Dalmahoy,
Linlithgow, Strathmiglo, Queensferry, etc.

N. O.—**Taxaceæ**—The Yew Family.

TAXUS. LINN.

T. baccata, L. Common Yew.

Woods—March, April.

Roslin, Dalkeith, Gorebridge, Mid-Calder, Corstorphine.
Probably introduced.

CLASS II.—MONOCOTYLEDONES OR
ENDOGENÆ.

SUB-CLASS I.—DICTYOGENÆ.

N. O.—**Trilliaceæ**—The Trillium Family.

PARIS. LINN.

P. quadrifolia, L. Common Herb-Paris, or True-love.

Moist shady woods—May, June.

Water of Leith above Currie, Newbattle, Arniston, Black
Devon, Dunfermline, Blair Hill woods, Dollar.

N. O.—**Hydrocharidaceæ**—The Frog-bit Family.

STRATIOTES. LINN.

S. aloides, L. Water Soldier.

Lakes and ditches—July.

Duddingston Loch, Old Quarry near Blackhall, Corstor-
phine. Naturalised.

ANACHARIS. RICH.

A. Alsinastrum, Bab. Water Thyme.

Ponds, ditches, canals, and streams—July–September.

Pond at Warriston, near Elie, Dunglass. Introduced.

Found in the Botanic Garden Pond, but it was not
introduced knowingly, and from this pond it has been
carried to Warriston.

N. O.—**Orchidaceæ**—The Orchis Family.

ORCHIS. LINN.

O. mascula, L. Early Purple Orchis.*Woods and pastures—May, June.*

Dalmeny, Dalmahoy, North Queensferry, Currie, Roslin, etc.

O. maculata, L. Spotted Hand or Palmate Orchis.*Woods, pastures, and heaths—May, June.*

Ravelrig, banks of Canal, Pentland Hills, Lomond Hills, Craiglockhart, etc.

O. latifolia, L. Marsh Orchis.*Marshes and moist meadows—June, July.*

Ravelrig, Drem, Queen's Park, Pentland Hills, Roslin, etc.

O. pyramidalis, L. Pyramidal Orchis.*Pastures and waste places—June–August.*

Largo, among Bent on sand.

GYMNADENIA. R. BR.

G. conopsea, R. Br. Fragrant Red-handed Orchis.*Dry pastures and heathy places—June–August.*

Dalmahoy, near Dunfermline, Lomond Hills, North Queensferry, Kincardine, Dollar, etc.

G. albida, Rich. Small White Orchis.*Hilly pastures—June–August.*

Dunfermline, Lethens Moor, Devon, Cardenden, North Queensferry, near Whitburn, Lomonds.

HABENARIA. R. BR.

H. viridis, R. Br. Green Frog-Orchis.*Dry hilly pastures—June–August.*

Hills about the Black Loch near Dunfermline, Dalmahoy, Pentland Hills, Glen Devon, Queensferry, Newbattle, Kilconquhar, Habbie's Howe.

H. bifolia, R. Br. Lesser Butterfly Orchis.*Woods, meadows, and marshy places—June–August.*

Ravelrig, Pentland Hills, Auchindinny, Gullane, Dunfermline, Falkland, Dollar.

H. chlorantha, Bab. Great Butterfly Orchis.*Pastures and heaths—May–July.*

Ravelrig, Lethens Moor, Pentland Hills, Dalmahoy, Ochils, near Dunfermline.

LISTERA. R. BR.

L. ovata, R. Br. Common Tway-blade.*Woods and moist pastures—May–July.*

Dalmeny, Ravelrig, Pentland Hills, Gosford, Donibristle, Queensferry, Raith, Dysart, Drem, Burntisland, etc.

L. cordata, R. Br. Heart-leaved Tway-blade.*Heathy, hilly places—June–August.*

Ravelrig Bog, West Lomond Hill, Knock Hill near Dunfermline, Pentland Hills, Habbie's Howe.

NEOTTIA. LINN.

N. Nidus-avis, Rich. Common Bird's Nest.*Shady woods—May, June.*

Roslin, Auchindinny, Cramond, Dalkeith, Arniston, Penicuik, Craighall, Tynehead, Burntisland, Prestonhall, Dalhousie.

EPIPACTIS. RICH.

E. latifolia, All. Broad-leaved Helleborine.*Woods—July, August.*

Dalmeny, Woodcockdale, Dalhousie, North Berwick, Dalkeith, Lasswade, etc.

E. palustris, Sw. Marsh Helleborine.*Moist and marshy places—July.*

Roman Camp near Dalkeith, Elie, Anstruther.

CEPHALANTHERA. RICH.

C. ensifolia, Rich. Narrow-leaved White Helleborine.

Woods—May, June.

Dalmahoy, Broomhall near Dunfermline.

CORALLORHIZA. HALL.

C. innata, R. Br. Spurless Coral-root.

Marshy woods—July.

Bog and woods of Ravelrig, near Culross, near Dunfermline.

MALAXIS. SW.

M. paludosa, Sw. Bog-Orchis.

Spongy bogs among sphagnum—July—September.

North Queensferry Hills (Dr. Dewar).

N. O.—**Iridaceæ**—The Iris Family.

IRIS. LINN.

I. Pseud-acorus, L. Yellow Water Iris, or Flag.

Watery places, sides of ditches, etc.—June, July.

Duddingston Loch, Roslin woods by the river side, Lochend, Dunfermline, North Berwick, Drem, Kincardine, Prestonpans.

I. fœtidissima, L. Fetid Iris or Gladdon.

Woods and thickets—May—July.

Arniston, near Dunfermline (Dr. Dewar).

[**I. germanica**, L. Garden Iris.

Is occasionally met with as an escape from gardens.]

[**Crocus aureus**, Sm. Golden Crocus.

Is occasionally found as an escape from gardens.]

N. O.—**Amaryllidaceæ**—The Amaryllis Family.

NARCISSUS. LINN.

N. poeticus, L. The Poet's Narcissus.

Sandy places—April, May.

Bass Rock. Introduced.

N. Pseudo-narcissus, L. Common Daffodil.

Woods and pastures—March, April.

Culross, Corstorphine, Roslin, Currie, Colinton, Dunfermline, Burntisland, Mid-Calder.

GALANTHUS. LINN.

G. nivalis, L. Common Snowdrop.

Woods, pastures, etc.—February, March.

Arniston, Dalkeith, Colinton, etc.

N. O.—**Liliaceæ**—The Lily Family.

ASPARAGUS. LINN.

A. officinalis, L. Common Asparagus.

Sea-coast—August.

Sea-shore Gullane and Gosford. Probably introduced.

CONVALLARIA. LINN.

C. majalis, L. Lily of the Valley.

Woods and coppices—May, June.

Colinton, Dysart, Arniston. Introduced.

POLYGONATUM. TOURN.

P. multiflorum, All. Common Solomon's Seal.

Woods—May.

Near Ormiston, Dysart, Granton. Introduced.

RUSCUS. LINN.

R. aculeatus, L. Common Butcher's Broom, Kneeholm.

Woods and heathy places—March, April.

Dalkeith, Dysart, Colinton, Roslin. Introduced.

TULIPA. LINN.

T. sylvestris, L. Wild Tulip.

Open woods—April, May.

Banks of Water of Leith above Currie, behind the stables at Donibristle, old quarry at Binny Craig near Linlithgow, near Pitreavie and Otterstone Fife, wood a little to the N.W. of Burntisland.

[**Lilium Martagon**, L. Turk's-cap Lily.

Is found in Arniston Woods, and on banks of Water of Leith, as an escape from gardens.]

N. O.—**Equisetaceæ**—The Horse-tail Family.

EQUISETUM. LINN.

E. arvense, L. Corn Horse-tail.

Fields, banks, and roadsides—April.

Lasswade, Duddingston, Currie, Arniston, etc.

E. umbrosum, Willd. Blunt-topped Horse-tail.

Wet places in woods—April.

Penicuik, Auchindinny, Woodcockdale, Dollar, Lethensden, West Lomond Hill, Castle Campbell, Falls of Clyde, Bridge of Allan.

E. maximum, Lam. Great Water Horse-tail.

Shady wet places—April.

Roslin, Arniston, near Kennoway, Auchindinny, Lasswade, Dalhousie, Juniper Green.

E. sylvaticum, L. Branched Wood Horse-tail.

Moist woods and hedge banks—April, May.

Auchindinny, Roslin, Arniston, Ravelrig, Braid Hermitage, Pentland Hills, Currie, etc.

E. limosum, L. Smooth Naked Horse-tail.

Pools, sides of lakes and rivers—June, July.

North Queensferry, Duddingston Loch, Ravelrig Bog, Braid Hills, Roslin, Gullane, Dunfermline, etc.

E. palustre, L. Marsh Horse-tail.

Marshes and boggy places—June, July.

Duddingston, Lochend, Roslin, Muttonhole, Dirleton, Lomond Hills, Colinton, Gullane, Lasswade, etc.

E. hyemale, L. Rough Horse-tail or Dutch Rushes.

Moist banks and woods—July, August.

Auchindinny, near Currie, Roslin, Falls of Clyde.

E. variegatum, Schl. Variegated Rough Horse-tail.

Wet places, generally near the sea—July, August.

Near North Berwick, St. Andrews.

N. O.—**Musci**—The Moss Family.
